Re: Letter of support for the application for the .AVOCAT domain extension

To: the Internet Corporation for Assigned Names and Numbers (ICANN)

Dear sir or madam,

The CARPENTRAS Bar Association, represented by the acting president Lionel Fouquet, hereby wishes to express its support for the BORDEAUX Bar Association's application in the framework of the NewgTLD 2026 program for the creation and use of the ".AVOCAT" domain extension.

The legal profession is a liberal, independent and regulated profession. As of 1 January 2023, there were 73,998 attorneys in France.

Admission to the profession, its practice and its ethics are supervised by a law dated 31 December 1971 and a decree dated 27 November 1991 from the national procedural rules.

It is based on essential principles, first and foremost independence, loyalty, integrity and professional secrecy. Its organization is both local and national.

Locally, every attorney is a member of a bar association, administered by a president, and an order of attorneys administered by a board of directors.

Nationally, the National Council of bar Associations represents the profession and unifies its professional rules. Finally, the conference of presidents represents the orders of bar associations outside PARIS and gives them a voice in the profession's governance.

In this context, the ".AVOCAT" extension represents an important opportunity to reinforce the identification of French attorneys online, guarantee public confidence and fight against the risk of identity theft, fraudulent practices online and illegal exercise of the profession.

Also, we fully support the principle according to which this extension would be exclusively reserved for attorneys and the professional exercise organizations of attorneys registered and in good standing with a French bar association and subject to the profession's ethical rules.

We consider that the Order of Attorneys of the BORDEAUX Bar Association has the necessary legitimacy and representativeness to manage this project on behalf of the community of French attorneys and to implement a governance that guarantees the respect for the principles of eligibility and oversight associated with the use of the ".AVOCAT" extension.

Therefore, the CARPENTRAS Bar Association, representing 91 attorneys, supports this application and encourages the ICANN to recognize the community nature of this ("Community gTLD") extension whose purpose is to serve the interests of the legal profession and protection of the public.

Should you require further information, please don't hesitate to reach out.

Re: Letter of support for your application for the .AVOCAT domain extension

Dear sir or madam,

The Voix des Barreaux union was formed in 2023 by attorneys of the provincial bar associations to represent them before the CNB (National Council of Bar Associations), the representative organization of the legal profession. Representatives of Voix des Barreaux were elected to the CNB for the 2024 - 2026 term and support within this institution digital recognition in keeping with their profession.
