How it works

Start now

Build on Avalanche to

Enter a Round

All submissions are public by default. Check if you are eligible before applying for a round. Connect your socials and submit regular updates and milestones.

Real-time updates on the

Social Feed

A unified live feed aggregates project milestones and updates as well as social posts, helping inform community points.

Rank up on the

Leaderboard

The Avalanche community votes for projects during an active round. Projects are ranked on a public leaderboard. Your Chill Factor may determine your voting power depending on the round.
