Trade Mark No: UK00002249323

Mark:
MBDA

Trade Mark No: UK00002249323

Mark type: Word mark

Trade Mark status: Registered, OPEN

Trade Mark type: Standard

Filing Date: 18/10/2000 **Registration Date:** 30/11/2001

Renewal Date: 18 October 2030

Journal First Advert

Journal Number: 6392

Publication Date: 15/08/2001

Goods and Services List:

Class 7:

Machines for use in relation to the fields of aviation, defence, missiles and satellites; machines tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); aircraft engines; machines for the manufacture of optical equipment and apparatus; machines for the manufacture of sheets and panels of plastics material; automatic direct thrust control devices; propulsion systems; parts and fittings for the aforesaid goods.

Class 9:

Scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; computer software and hardware; electronic apparatus and instruments, all for use in relation to the fields of aviation, defence, missiles and satellites; information processing equipment and computers; pre-recorded and non-recorded discs, pre-recorded and non-recorded audio and video cassettes; pre-recorded and non-recorded compact discs; transmitters, receivers, apparatus for delivering electronic and radio signals; scientific satellites and satellites for receiving and transmitting radio signals; electric cables, fibre optic cables; automatic direct thrust control devices; satellite management programmes and apparatus; electronic publications; parts and fittings for all the foregoing.

Class 12:

Vehicles for locomotion by land, air, water and rail; aircraft, spacecraft, satellites; launch vehicles; parts and fittings for all the foregoing.

Class 13:

Firearms, ammunition and projectiles; explosives; fireworks; missiles; missile projection systems; systems and apparatus for launching and guiding missiles; rocket motor driven weapons; parts and fittings for all the foregoing.

Class 16:

Printed matter; printed publications; instructional and teaching materials; photographs.

Class 37:

Construction and repair services; installation, maintenance and repair of electronic apparatus; construction and repair services in the fields of aviation, defence and satellites; information, consultancy and advisory services all relating to the foregoing.

Class 38:

Telecommunication services; communications, pager and mobile phone services and other forms of electronic communications; communications services provided by means of fibre-optic networks; satellite services; satellite transmission and communication services; communications via computer terminals; telephone communications services; transmission of news and information; rental of telecommunications apparatus; rental of apparatus for transmitting messages; rental of modems; transmission of messages and images by means of computers; communication by computer terminals, broadcasting services, mobile phone services; satellite transmission services; communication services via computer networks in general; information, consultancy and advisory services all relating to the foregoing.

Class 39:

Transportation and storage services; air transport; rental of aircraft; information, consultancy and advisory services all relating to the foregoing.

Class 41:

Education services; teaching, training; organisation of forums, conferences, lectures and seminars; publication of books, periodicals and other publications; publishing services; information, consultancy and advisory services all relating to the foregoing.

Class 42:

Testing of installation of computer systems; recording and filming of video tapes; recreation of databases; exploitation of patents; rental of access time to computer databases; consultation services on security matters; professional consultation services (but not in relation to business management), testing of materials; meteorological information; drafting and design of software, drafting and design of computer images; engineering works (assessment); rental of access time to computers for handling of data; maintenance of software; maintenance of computers; mechanical research; aeronautical research; computer programming; technical project studies; technical research; computer aided design services; engineering services relating to the design of digital radio communication networks; engineering and consultancy services relating to missiles and missile guidance and launching

systems and apparatus; design of telecommunication and broadcasting programmes; technical consultancy in the fields of telecommunications, information technology and computers; information, consultancy and advisory services all relating to the foregoing.

Goods and services

Classes and terms

Class 7

Machines for use in relation to the fields of aviation, defence, missiles and satellites; machines tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); aircraft engines; machines for the manufacture of optical equipment and apparatus; machines for the manufacture of sheets and panels of plastics material; automatic direct thrust control devices; propulsion systems; parts and fittings for the aforesaid goods.

Class 9

Class 12

Vehicles for locomotion by land, air, water and rail; aircraft, spacecraft, satellites; launch vehicles; parts and fittings for all the foregoing.

Class 13

Firearms, ammunition and projectiles; explosives; fireworks; missiles; missile projection systems; systems and apparatus for launching and guiding missiles; rocket motor driven weapons; parts and fittings for all the foregoing.

Class 16

Printed matter; printed publications; instructional and teaching materials; photographs.

Class 37

Construction and repair services; installation, maintenance and repair of electronic apparatus; construction and repair services in the fields of aviation, defence and satellites; information, consultancy and advisory services all relating to the foregoing.

Class 38

Telecommunication services; communications, pager and mobile phone services and other forms of electronic communications; communications services provided by means of fibre-optic networks; satellite services; satellite transmission and communication services; communications via computer terminals; telephone communications services; transmission of news and information; rental of telecommunications apparatus; rental of apparatus for transmitting messages; rental of modems; transmission of messages and images by means of computers; communication by computer terminals, broadcasting services, mobile phone services; satellite transmission services; communication services via computer networks in general; information, consultancy and advisory services all relating to the foregoing.

Class 39

Transportation and storage services; air transport; rental of aircraft; information, consultancy and advisory services all relating to the foregoing.

Class 41

Education services; teaching, training; organisation of forums, conferences, lectures and seminars; publication of books, periodicals and other publications; publishing services; information, consultancy and advisory services all relating to the foregoing.

Class 42

Testing of installation of computer systems; recording and filming of video tapes; recreation of databases; exploitation of patents; rental of access time to computer databases; consultation services on security matters; professional consultation services (but not in relation to business management), testing of materials; meteorological information; drafting and design of software, drafting and design of computer images; engineering works (assessment); rental of access time to computers for handling of data; maintenance of software; maintenance of computers; mechanical research; aeronautical research; computer programming; technical project studies; technical research; computer

aided design services; engineering services relating to the design of digital radio communication networks; engineering and consultancy services relating to missiles and missile guidance and launching systems and apparatus; design of telecommunication and broadcasting programmes; technical consultancy in the fields of telecommunications, information technology and computers; information, consultancy and advisory services all relating to the foregoing.
