

CERTIFICATE OF TRADEMARK REGISTRATION

Registration No. 6114670

(REGISTRATION NUMBER)

THE MARK

AGC

LIST OF GOODS AND SERVICES

Class 1 — Chemicals; refrigerants; solvents; industrial cleaning agents; surfactants; water-repellent agents; ion-exchange resins; waterproofing agents; chemical adsorbents; (remainder as stated on the attached sheets) silica gel; metal oxides; release agents; wallpaper removers; industrial glues and adhesives; plant growth regulators; fertilizers; ceramic glazes; painters' putty; higher fatty acids; nonferrous metals; nonmetallic minerals; photographic materials; test paper; artificial sweeteners; flour and starch for industrial purposes; unprocessed plastics; unprocessed fluororesins; unprocessed polyurethane resins; unprocessed polyvinyl chloride resins; pulp

Class 2 — Mordants; mastic; wood preservatives; dyestuffs; pigments; paints; printing ink; artists' colors; anti-rust greases; nonferrous metal foil and powder for painting, decoration, printing, or art

Class 3 — Antistatic preparations for household purposes; degreasing preparations for household purposes; rust-removing preparations; stain-removing benzene; fabric softeners for laundry use; laundry bleach; adhesives for affixing wigs; adhesives for affixing false eyelashes; laundry starch; paint-stripping preparations; shoe cream; polishing preparations; soaps; cleaning liquids for dry cleaning; dentifrices; perfumery; fragrances; abrasive paper; abrasive cloth; abrasive sand; polishing preparations (other than auxiliary fluids for use with abrasives and those for dental purposes); polishing slurries; polishing paper; false nails; false eyelashes

Class 4 — Solid lubricants; industrial oils; lubricating oils; industrial greases; mold-release oils

Class 5 — Pharmaceutical preparations; antibodies for medical purposes; antibodies for veterinary purposes; protein and amino-acid preparations; cultured microorganisms for medical or veterinary purposes

Class 6 — Iron and steel; nonferrous metals and their alloys; metal pipes and tubes; soft solder; metal ores; metal materials for building or construction; aluminum window frames; metal window frames; prefabricated building kits of metal; loading pallets of metal; metal spray booths for painting; metal molds for forming cement products; metal pulleys, springs, and valves (not including machine elements); metal pipe couplings; metal flanges; metal storage tanks; metal transport containers; metal packaging containers; metal fittings and joinery; metal signboards; portable household greenhouses of metal

Class 7 — Metalworking machines and tools; arc welding apparatus; metal cutting machines (by gas); electric welding apparatus; construction machines and apparatus; loading and unloading machines and apparatus; chemical processing machines and apparatus; textile machines and apparatus; machines and apparatus for lumbering, woodworking, or plywood manufacture; glassware manufacturing machines; painting machines and apparatus; packaging machines and apparatus; plastic processing machines and apparatus; semiconductor manufacturing machines; rubber-goods manufacturing machines and apparatus; boilers; vending machines; dishwashers; electric washing machines; electric vacuum cleaners; electric mixers; electric curtain-drawing apparatus; electric door openers and closers; waste compacting machines and apparatus; waste crushing machines; 3D printers

Class 8 — Hand tools; egg slicers (non-electric); dried-bonito shavers; can openers; spoons; cheese slicers (non-electric); pizza cutters (non-electric); forks

Class 9 — Ozone generators; electrolyzers; machines and instruments for drafting or drawing; time stamps; time recorders; billing machines; fire alarms; gas-leak alarms; anti-theft alarms; railway signals; road signs (luminous or mechanical); physical and chemical apparatus and instruments; laboratory glassware; photographic machines and apparatus; cinematographic machines and apparatus; projection screens; optical machines and instruments; optical lenses; optical filters; measuring machines and instruments; power distribution or control machines and apparatus; rotary converters; phase modifiers; batteries and cells; solar batteries; electric or magnetic meters and testers; electric wires and cables

Class 10 — Triangular bandages; supportive bandages; ice bags; nursing bottles and feeding utensils; vacuum feeding bottles; finger guards for medical purposes; contraceptive apparatus; artificial eardrum materials; prosthetic filling materials (not for dental use); esthetic massage apparatus for commercial use; electric massage apparatus for household use; gloves for medical purposes

Class 11 — Industrial furnaces; solar water heaters; water purifying apparatus; electric lamps and lighting apparatus; LED lighting apparatus; household electrothermic appliances; washers for water taps; washers for water faucets; gas water heaters; heaters; kitchen worktops; kitchen sinks; household water purifiers; bathtubs; lamp chimneys; household sewage purification tanks; household night-soil treatment tanks

Class 12 — Traction engines; power machinery and apparatus for land vehicles (not including their parts); machine elements for land vehicles; anti-theft alarms for vehicles; AC motors or DC motors for land vehicles (not including their parts); vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; window glass for automobiles; other automobiles and their parts and fittings; cigarette lighters for automobiles; two-wheeled motor vehicles and bicycles and their parts and fittings; sleighs; carts; wagons; two-wheeled trailers; adhesive rubber patches for repairing tires or tubes

Class 16 — Plastic food-wrapping film for household use; stationery; whiteboards (other than electronic); printed matter; photograph stands

Class 17 — Valves of rubber or vulcanized fiber (not including machine elements); gaskets; pipe joints (not of metal); packings; electrical insulating materials; washers of rubber or vulcanized fiber; chemical fibers (not for textile use); rock wool; slag wool; rubber thread and covered rubber yarn (not for textile use); chemical-fiber yarn (not for textile use); insulating gloves; rubber cords; rubber packaging containers; rubber stoppers; rubber lids; agricultural plastic film; condenser paper; vulcanized fiber; plastic semi-worked products; sheet-form artificial resins for manufacturing (semi-finished products); plastic sheeting as semi-worked product; sponges; fiber-reinforced plastic sheeting as semi-worked product; rubber; fluororubber; soundproofing materials of rock wool (not for building purposes); heat-insulating and fireproofing materials (not building materials); heat-insulating materials (not for building purposes)

Class 19 — Ceramic building materials, bricks, and refractory products; refractory cement; refractory bricks; linoleum building materials; plastic building materials; synthetic building materials; asphalt, and asphalt building or construction materials; rubber building or construction materials; plaster; lime building or construction materials; plaster building or construction materials; ticket-window communication plates; lane-marking strips; cement and cement products; aggregate; timber; stone; building glass; spray booths for painting (not of metal); molds for forming cement products (not of metal); water-pipe valves (not of metal or plastic); road signs (not of metal, and neither luminous nor mechanical); beacons (not

of metal, and non-luminous); storage tanks (not of metal or plastic); fittings and joinery (not of metal); portable household greenhouses (not of metal); mineral base materials; tars and pitches; prefabricated building kits (not of metal)

Class 20 — Loading pallets (not of metal); plastic valves (not including machine elements); storage tanks (not of metal or stone); transport containers (not of metal); plastic fasteners as metal substitutes; nails, wedges, nuts, screws, tacks, bolts, rivets, and casters (not of metal); washers (not of metal, rubber, or vulcanized fiber); cushions; floor cushions; pillows; mattresses; furniture; mirrors; indoor blinds; bamboo blinds; ornamental bead curtains; partition screens; folding screens; benches; signboards of wood or plastic

Class 21 — Glass semi-worked products (not for building purposes); household gloves; packaging containers of glass or porcelain; pots and pans; cooking utensils for microwave ovens; coffee makers (non-electric); coffee pots (non-electric); teapots; kettles; tableware; ice boxes; ice chests; rice chests; glass jars for preserving food; canteens; vacuum bottles; cooking utensils; ice pails; whisks; strainers; pepper pots, sugar bowls, and salt shakers; glass soy-sauce containers; glass cooking-oil containers; egg cups; napkin holders and napkin rings; colanders; shakers; rice scoops; hand-operated coffee grinders and pepper mills; bottle openers; graters for daikon; tart scoops; lemon squeezers; waffle irons (non-electric); sugar tongs; nutcrackers; heat-retaining and cooling packs filled with chemical substances; signboards of glass or porcelain; cosmetic utensils; polishing cloths

Class 24 — Woven fabrics; knitted fabrics; felt and non-woven fabrics; leathercloth; filtering cloth; curtains; tablecloths

Class 25 — Clothing; Western-style clothing; Japanese-style clothing; footwear; shoes and boots

Class 28 — Arcade video game machines

Class 30 — Coagulants for ice cream; binding agents for sausages; baking soda for baking; stabilizers for whipped cream; household meat tenderizers; thickeners for cooking foodstuffs; cream of tartar for culinary purposes; bicarbonate of soda for cooking purposes

Class 35 — Advertising; business management analysis and business consulting; market research and analysis; providing information on commodity sales; agency or representation services for import-export clerical work; reception and guidance of visitors in buildings; advisory services relating to the marketing of chemicals; retail or wholesale services for building materials; retail or wholesale services for glass

Class 36 — Brokerage of life insurance contracts; life insurance underwriting; agency services for non-life insurance contracts; assessment of damages for non-life insurance; non-life insurance underwriting; calculation of insurance premium rates; building management; providing information on buildings or land

Class 37 — Construction; asphalt paving; tile, brick, or block laying; pipeline laying; building water-leakage prevention work; bricklaying; interior and exterior painting; joinery fitting; building repair; window-glass installation; waterproofing; installation and repair of air-conditioning apparatus; installation and maintenance of photovoltaic power apparatus; installation and maintenance of solar thermal apparatus; repair or maintenance of vessels; repair or maintenance of aircraft; repair or maintenance of automobiles; repair or maintenance of railway rolling stock; repair or maintenance of two-wheeled motor vehicles; advisory services relating to joinery fitting

Class 39 — Warehousing; transport by truck

Class 40 — Contract purification of antibodies; waterproofing of cloth; waterproof treatment; metalworking; polishing; application of thin films to the surfaces of articles by chemical, mechanical, thermal, thermomechanical, chemical vapor deposition, physical vapor deposition, or vacuum deposition processes; rubber treatment; laminating of plastic sheet; plastic treatment; ceramic treatment; water purification treatment and providing information relating thereto; water recycling and desalination treatment; wastewater treatment; refrigerant reclamation; energy treatment and conversion; gas treatment; contract manufacture of pharmaceuticals; contract manufacture of biological preparations; contract compounding of paints; air purification treatment

Class 42 — Architectural design; design and development of products; interior and exterior decorative design; design, creation, and maintenance of websites; instruction and advice on the design, creation, and maintenance of computer software; design and development of computer software; design and development of inventory management software; research on biotechnology; testing, inspection, and research of pharmaceuticals, cosmetics, and foodstuffs; research on pharmaceuticals; research on chemistry; research and development in the field of antibody production technology; research on agricultural chemicals; research on products; research on architecture; research and development on solar cells and power generation; research and development of new products in the field of plastic materials

OWNER OF THE TRADEMARK RIGHT

1-5-1 Marunouchi, Chiyoda-ku, Tokyo

AGC Inc.

Application number (APPLICATION NUMBER)	Trademark Application No. 2018-085134
Filing date (FILING DATE)	June 29, 2018
Registration date (REGISTRATION DATE)	January 18, 2019

THIS IS TO CERTIFY THAT THE TRADEMARK IS REGISTERED ON THE REGISTER OF THE JAPAN PATENT OFFICE.

January 18, 2019

Commissioner, Japan Patent Office Naoko Munakata [seal]

Continuation sheets 1 through 6 bear the certificate title, registration number, and application number on each sheet.

NOTICE OF REGISTRATION OF ESTABLISHMENT OF TRADEMARK RIGHT

Certificate sent to:

Address: 1-5-1 Marunouchi, Chiyoda-ku, Tokyo 100-0005

Name: AGC Inc.

Registration number	No. 6114670
Registration date	January 18, 2019
Application number	Trademark Application No. 2018-085134
Filing date	June 29, 2018
Number of classes of goods and services	27
Years paid	Through the 10th year
Amount received	761,400 yen
Date of receipt	December 30, 2018

Procedures for registration of renewal of the term

- To renew the trademark right, file an Application for Registration of Renewal of the Term of a Trademark Right during the period from six months before to the expiration date of the ten-year term running from the registration date.
- If you are unable to complete the procedure within the above period, the term of the trademark right may still be renewed within six months after the expiration date by filing the Application for Registration of Renewal of the Term of a Trademark Right together with a late payment of double the registration fee.
- If no application is filed within the period allowed for late payment, the trademark right is deemed to have lapsed retroactively as of the payment due date.
- For the form of the Application for Registration of Renewal of the Term of a Trademark Right and the amount of the registration fee, see the Japan Patent Office website: <http://www.jpo.go.jp/indexj.htm>

Deadline for registration of renewal of the term — expiration date of the 10th year: January 18, 2029

(Note: if the payment due date falls on a holiday of an administrative organ, the following day is the last day of the period.)

Important — The Japan Patent Office does not send notices concerning renewal procedures; please manage the expiration of the term yourself.

Inquiries: Registration Office, Examination Operations Division. Telephone 03 (3581) 1101 (main), trademark extension 2713.
