- (a) Amend, modify, waive, supplement, restate, terminate, replace, or consent to any change in the Registry Agreement, Specification 13, or any related ICANN agreements, policies, or arrangements that would or could result in the TLD being operated as, or converted into, an Open TLD;
- (b) Take any action, or fail to take any action, under the Registry Agreement, Specification 13, or any related ICANN arrangements that would or could permit the sale, resale, distribution, allocation, assignment, transfer, or other registration of domain names in the TLD to any person or entity other than GE Aerospace, Licensee, or their respective Affiliates;

- (f) Take any other action that would reasonably be expected to result in the TLD ceasing to be operated exclusively as a .BRAND TLD under Specification 13.

3.2 Specification 13 – Registrant Restrictions

Only GE Aerospace or Licensee, their Affiliates, or Trademark Licensees defined in Specification 13, may be registrants of domain names in the TLD and control the DNS records associated with domain names at any level in the TLD.

3.3 No Unauthorized Modifications to Registry Agreement

Licensee shall not amend, modify, supplement, restate, terminate, or replace the Registry Agreement, or any specification, appendix, or amendment thereto (including Specification 13), or enter into any new agreement with ICANN relating to the TLD, without the prior written consent of GE Aerospace. Any such amendment, modification, or new agreement entered into without GE Aerospace's prior written consent shall constitute a material breach of this Agreement.

3.4 Compliance with Laws and ICANN Policies

Licensee shall at all times operate the TLD in compliance with all applicable laws, regulations, and ICANN policies, including the Registry Agreement and Specification 13. Licensee shall promptly notify GE Aerospace of any inquiry, investigation, proceeding, or dispute initiated by ICANN or any governmental authority relating to the TLD or the Licensed Mark.

4.2 Corrective Action

If GE Aerospace determines, in its sole and reasonable discretion, that Licensee's use of the Licensed Mark or operation of the TLD does not comply with the Brand Standards or this Agreement, GE Aerospace shall notify Licensee in writing, and Licensee shall cure such non-compliance within thirty (30) days of receipt of such notice.

6.2 Authority to Apply and Operate

GE Aerospace authorizes Licensee to apply for, contract with ICANN regarding, and operate the TLD, subject at all times to the terms and conditions of this Agreement. Such authorization is contingent upon Licensee's continued compliance with this Agreement.
