

CERTIFICATE OF TRADEMARK REGISTRATION

Registration No. 7019168

(REGISTRATION NUMBER)

THE MARK

GENERAL

(Standard characters)

LIST OF GOODS AND SERVICES

Class 7 — Starters; AC motors and DC motors (other than AC motors and DC motors for land vehicles (not including their parts)); (remainder as stated on the attached sheets) AC generators; DC generators; electric motors (other than for land vehicles); electric motors for machines; DC motors; servomotors; elevator motors; starters for land vehicles; electric motors and their parts (other than for land vehicles); electric motors for machines equipped with digital servo drive controllers; linear motors; AC servomotors; electric motors for refrigerators; starters for prime movers; machines and apparatus for controlling electric motors; air coolers; dust exhaust apparatus for cleaning

Class 9 — Electronic machines and apparatus and their parts; computer programs; electronic circuits (other than electronic circuits recorded with computer programs); semiconductor elements; electron tubes; integrated circuits; IC chips; circuit boards; circuit boards for computers; printed circuit boards; memory boards; electric circuit boards; flexible circuit boards; computer software for business process automation and management; computer utility software for file management; computer processing apparatus for sales settlement and management; computer software for sales settlement and management; computer programs for inventory management; computer software for attendance management; computer software for order placement management; computer software for order management; application software; recorded magnetic cards for computer programs; readers for recorded magnetic cards for computer programs; apparatus for recording, transmission, or reproduction of information; digital recording media; point-of-sale (POS) terminals for managing information at the point of retail sale; software as a medical device (SaMD) (downloadable); dispensers for medication (other than for medical use) (measuring apparatus); computer programs for electronic medical-record systems; computer software for managing medical treatment records; computer software for agriculture; computer software for firefighting; computer software for emergency services; computer software for disaster prevention; computer software for agricultural product management; computer programs for telecommunications; computer software for monitoring water heaters; computer software for controlling water heaters; software for telecommunications; computer software; downloadable computer software for remote monitoring and analysis; communication software for connecting computer network users; software for performing, facilitating, and managing remote access and communication to local area networks and global networks; communication software; computers; computer memory devices; computer peripherals; computer hardware; computer interfaces; computer printers; computer monitors; electronic tags for goods; smart cards (IC cards); biometric scanners; data processing apparatus; bar code readers; readers (data processing equipment); telecommunication machines and apparatus; telephone machines and apparatus; wire communication machines and apparatus; carrier machines and apparatus; broadcasting machines and apparatus; radio communication machines and apparatus; radio application machines and apparatus; remote measuring and control machines and apparatus; audio frequency machines and apparatus; video frequency machines and apparatus; parts and accessories for telecommunication machines and apparatus; connectors for telecommunication machines and apparatus; capacitors for telecommunication machines and apparatus; resistors for telecommunication machines and apparatus; fuses for telecommunication machines and apparatus; wiring boards; antennas; remote control apparatus; high-frequency transmitting and receiving apparatus; electric remote control apparatus for signals; global positioning system (GPS) apparatus; intercommunication apparatus; transmitters (for telecommunications); transmitting apparatus (for telecommunications); electric remote control apparatus; electronic signal transmitters; video cameras; headphones; monitoring apparatus with

monitors (other than for medical purposes); infrared remote controls; remote control apparatus for air conditioners; intercommunication apparatus for air conditioners; electric control panels; electric control apparatus; personal digital assistants; measuring machines and instruments; thermometers; weather thermometers; automatic regulating machines and instruments; automatic temperature regulating machines and instruments; temperature regulating apparatus; air analysis apparatus; detection apparatus (measuring machines and instruments); hygrothermometers; digital thermostats for room temperature control; remote control apparatus for air conditioning apparatus; measuring and electronic control apparatus for air conditioning technology; power distribution or control machines and apparatus; rotary converters; phase modifiers; switches; relays; circuit breakers; controllers; rectifiers; disconnectors; flashers; wiring boxes; switchboards; connectors for power distribution or control; capacitors for power distribution or control; resistors for power distribution or control; fuses for power distribution or control; transformers; induction voltage regulators; connectors (electric); control panels (electric); electric adapters; electric switches; machines and apparatus for electric control; electric connectors; downloadable virtual electronic machines and apparatus and their parts; downloadable virtual electronic machines and apparatus; downloadable virtual measuring machines and instruments; downloadable virtual telecommunication machines and apparatus; downloadable virtual wire communication machines and apparatus; downloadable virtual radio communication machines and apparatus; downloadable virtual radio application machines and apparatus; downloadable virtual remote measuring and control machines and apparatus; downloadable virtual parts and accessories for telecommunication machines and apparatus; downloadable virtual remote control apparatus; downloadable virtual infrared remote controls; downloadable virtual remote control apparatus for air conditioners; downloadable virtual intercommunication apparatus for air conditioners; downloadable virtual measuring machines and instruments; downloadable virtual thermometers; downloadable virtual weather thermometers; downloadable virtual temperature regulating apparatus; downloadable virtual air analysis apparatus; downloadable virtual hygrothermometers; downloadable virtual remote control apparatus for air conditioning apparatus; downloadable virtual heating and cooling apparatus; downloadable virtual humidifiers; downloadable virtual air purifiers; downloadable virtual dehumidifiers; downloadable virtual central air conditioning apparatus; downloadable virtual window-mounted air conditioning apparatus; downloadable virtual air conditioners; downloadable virtual heating apparatus; downloadable virtual electric fans; downloadable virtual ventilating fans; downloadable virtual portable air conditioners; downloadable virtual air purifiers; downloadable virtual dehumidifiers; downloadable virtual humidifiers; downloadable virtual gas water heaters; downloadable virtual water heaters; downloadable virtual gas hot-water supply heaters; downloadable virtual oil-fired hot-water supply heaters; downloadable virtual electric hot-water supply heaters; downloadable virtual hot-water supply heaters; downloadable digital image files authenticated by non-fungible tokens (NFTs); downloadable computer software applications for generating non-fungible tokens (NFTs); physical electronic machines and apparatus and their parts authenticated by non-fungible tokens (NFTs); physical telecommunication machines and apparatus authenticated by non-fungible tokens (NFTs); physical remote control apparatus authenticated by non-fungible tokens (NFTs)

Class 11 — Heating and cooling apparatus for commercial use; warm-air heating apparatus for commercial use; warm-air furnaces for commercial use; hot-water heating apparatus for commercial use; humidifiers for commercial use; air purifiers for commercial use; steam heating apparatus for commercial use; dehumidifiers for commercial use; unit induction air conditioning apparatus for commercial use; radiators for heating and cooling apparatus for commercial use; central air conditioning apparatus for commercial use; window-mounted air conditioning apparatus for commercial use; road-surface heating apparatus for commercial use; air valves for steam heating apparatus; solar collectors for heating; heating apparatus for defrosting vehicle windows; air conditioners for vehicles; ventilating apparatus and air conditioning installations for vehicles; defrosting apparatus for vehicles; heating apparatus for vehicles; thermostatic valves (parts of heating installations); stoves (heating apparatus); radiators for central heating; dampers (for heating); electric radiators for heating buildings; fan heaters; fans (parts of air conditioning apparatus); radiators (for heating); room coolers; patio heaters; electric patio heaters; combined cooling and freezing apparatus; cooling appliances and installations; cooling equipment; cooling installations; humidifiers (electric and non-electric); portable warm-air dehumidifiers; air conditioning apparatus in commercial facilities; air conditioning installations for commercial use; laboratory ventilation installations (air conditioning); indoor heating apparatus; electric dispensers for indoor deodorizing (sprayers); outdoor heaters; heating and cooling apparatus for industrial use; air purifying apparatus for industrial use; floor heating apparatus; floor heating installations; ventilation installations for buildings (air conditioning); electric fans (for commercial and household use); portable stoves and cooking stoves; portable fans (for commercial and household use); portable evaporative cooling apparatus (for commercial and household use); ventilation hoods; filters for ventilation hoods; ventilating fans; ventilation apparatus; portable air conditioners; radiant heating apparatus; heating apparatus; electric dehumidifiers; electric air heaters; electric air deodorizing apparatus; electric window ventilating fans; air conditioners; heat-radiating plates for heating apparatus; heat-stable polypropylene pipes for heating apparatus; indoor heating apparatus for commercial use; cryogenic cooling equipment; water-based heating apparatus; cooling installations for liquids; radiator valves for temperature control; warm-air heating apparatus; hot-water heating apparatus; warm-air apparatus; oil-fired heating apparatus; mobile electric heating apparatus (for commercial and household use); air reheaters; air cooling apparatus; air sterilizing apparatus; air washing apparatus; spray apparatus for air fresheners; air purifiers; filters for air purifiers; ionization apparatus for air purification; electric dispensers for air purification (sprayers); air purifying apparatus; air deodorizing apparatus; filters for air conditioning; air conditioning filters; hoods for air conditioning apparatus; fans for air conditioning apparatus; impellers for air conditioning apparatus; air conditioning apparatus; humidifiers used with air conditioning apparatus; fans for air conditioning apparatus; axial fans for air conditioning apparatus; air filters for air conditioning apparatus; air conditioning installations; window-mounted air conditioning apparatus; bladeless electric fans; deodorizing apparatus; heat-storage heaters; combined heating and air conditioning apparatus; electric room deodorizing apparatus; dehumidifiers; electric humidifiers; electric heaters; electric stoves and cooking stoves; electric cooling apparatus; electric

reflective heating apparatus; electric indoor heating apparatus; electric outdoor heaters; electric radiators; electric heating apparatus; electric heating apparatus (for commercial and household use); heat exchangers for chemical product manufacturing; household electrothermic appliances; electric humidifiers for household use; electric air purifiers for household use; electric dehumidifiers for household use; electric fans for household use; electric futon dryers for household use; electric room coolers for household use; electric stoves for household use; electric foot warmers for household use; stoves (other than electric); gas stoves; coal stoves; oil stoves; wicks for oil stoves; fireplaces; boilers (other than parts of power machinery or engines); boiler pipes for heating apparatus; water supply apparatus for heating boilers; heat exchangers (other than machine parts); freezing machines and apparatus for commercial use; coolers for commercial use (freezing machines and apparatus); freezers for commercial use; household heaters (other than electric); kitchen worktops for household use; kitchen sinks for household use; foot warmers; pocket warmers; hot-water bottles; body cooling packs (other than for medical use); electric body cooling appliances; electronic body cooling appliances; small cooling apparatus (including portable cooling apparatus); gas water heaters; heat-storage water heaters; gas water heaters for household use; water heaters for household use; water heaters; instantaneous water heaters; air-source heat pump water heaters; industrial water heaters; feed-water heaters; electromagnetic induction water heaters; solar water heaters; industrial feed-water heaters; gas hot-water supply heaters for household use; heat-pump electric hot-water supply heaters for household use; oil-fired hot-water supply heaters for household use; electric hot-water supply heaters for household use; gas hot-water supply heaters for commercial use; heat-pump hot-water supply heaters for commercial use; hot-water supply heaters for commercial use; oil-fired hot-water supply heaters; electric hot-water supply heaters; electric cold and hot water dispensers for household use; hot-water boilers; electric water heaters for household use; electric water heaters for commercial use; physical air conditioners authenticated by non-fungible tokens (NFTs); physical heating and cooling apparatus authenticated by non-fungible tokens (NFTs); physical water heaters authenticated by non-fungible tokens (NFTs); physical hot-water supply heaters authenticated by non-fungible tokens (NFTs)

Class 35 — Filing of documents or magnetic tapes; agency services for clerical work relating to invoice preparation; computerized file management; data processing (office functions); confirmation of reservations (office functions); scheduling of reservations (office functions); agency services for online order-taking clerical work; computerized database management; computerized office management; computerized accounting; data entry into computers; agency services for data entry work; compilation and construction of information into data banks; business file management; agency services for online product order-taking clerical work in the field of restaurant takeout and delivery; document preparation by word processor; general office functions; central file management; agency services for accounting management, invoice preparation, and reconciliation on behalf of others; accounting; agency services for clerical processing of wholesale orders; document filing (general office functions); agency services for inventory-taking clerical work; secretarial and general office functions; agency services for accounting clerical work; agency or representation services for import-export clerical work; employment placement; temporary employment placement; personnel placement; personnel recruitment referral; placement of engineers; placement of employees; recruitment of technical staff; recruitment of personnel for business support; recruitment of dispatched workers; referral of dispatched workers; advertising; advertising consultancy; advertising agency services; advertising brokerage; planning and operation of advertising events; advertising services; advertising via the Internet; online publication of advertising materials; online distribution of advertising materials; television advertising; digital advertising; bill-posting; radio advertising; radio advertising agency services; transit advertising; newspaper advertising; cinema advertising; planning and agency services for corporate advertising and public relations activities; advertising relating to the sale of goods; planning and operation of exhibitions for commercial or advertising purposes; preparation of publicity materials; conducting of virtual trade fairs online; advertising in virtual spaces; retail or wholesale services for heating and cooling apparatus

Class 37 — Construction; plumbing; electrical work; telecommunications work; heat insulation work; cable laying work; installation work of heating and cooling air conditioner equipment; installation work of air conditioners; installation work of heating and cooling equipment; installation work of solar heating systems; installation and repair of floor heating apparatus; installation work of heating, lighting, and cooking equipment; installation work of heating apparatus; installation, maintenance, and repair of heating apparatus; installation work of apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply, and sanitary purposes; construction work relating to the installation of HVAC (heating, ventilation, and air conditioning) equipment; construction consultancy; consultancy relating to the installation of heating and cooling apparatus; operation, inspection, and maintenance of building equipment; operation, inspection, and maintenance of heating and cooling apparatus; repair or maintenance of heating and cooling apparatus for commercial use; repair or maintenance of burners; repair or maintenance of boilers; repair or maintenance of pumps; repair or maintenance of freezing machines and apparatus for commercial use; repair or maintenance of heating and cooling apparatus; installation, maintenance, and repair of district heating apparatus; repair or maintenance of heating and cooling apparatus for industrial use; repair and maintenance of heating equipment; periodic maintenance of heating apparatus; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of control systems for radio communication equipment and radio network equipment; repair or maintenance of electronic machines and apparatus; repair or maintenance of consumer electric appliances; cleaning of electric heating and cooling apparatus for household use; repair or maintenance of water heaters; providing information on the repair or maintenance of water heaters; installation work of water heaters; operation, inspection, and maintenance of hot-water supply equipment

Class 40 — Metalworking; manufacture and processing of printed wiring boards; custom manufacture and assembly processing of semiconductor components and integrated circuits for others; packaging processing of semiconductors and integrated circuits; providing information on contracted processing of semiconductor integrated circuits; processing of semiconductor integrated circuits; contract assembly or packaging of semiconductor integrated circuits; contract assembly processing of integrated circuits and printed wiring boards; packing (mounting) processing of integrated circuits; etching of integrated circuits; providing information on the processing of integrated circuits; sorting and disposal of waste; sorting and disposal of general waste; sorting and disposal of industrial waste; waste treatment; waste treatment and recycling; crushing of waste; recycling of waste; upcycling (waste recycling); recycling of waste for carbon offsetting; recycling of plastics; recycling of PET bottles; reprocessing of chemical products; recycling of medical waste; providing information and advice on waste recycling; guidance and advice on waste recycling; waste treatment (transformation); regeneration of storage batteries; regeneration of clothing; regeneration of catalytic converters; recycling of electronic and electrical equipment; metal recycling of metal products; recycling and disposal of home appliances; providing material treatment information

Class 41 — Providing electronic publications; providing electronic publications online (not downloadable); providing non-downloadable electronic publications authenticated by non-fungible tokens (NFTs); providing facilities for education and training through research and instruction in the arts, sciences, and medicine; providing facilities for movies, shows, plays, music, or educational training

Class 42 — Design of machines, apparatus, or instruments (including their parts) or of installations composed of such machines; technical design relating to heating apparatus; technical design relating to heating and cooling apparatus; design of IC chips; advice on the design and development of computer hardware; computer-aided design of production equipment; computer engineering; design and development of computer hardware and software; technical advice relating to the design of computer hardware, software, and computer peripherals; research and development relating to computer hardware and software; advice on computer technology; technical advice for digital transformation; design and development of computer software and hardware for digital signal processing; design and development of data processing apparatus; design of microchips; technical design relating to cooling appliances and installations; design of semiconductor chips; drafting of drawings; design and development of industrial products; engineering in the field of building technology; design and development of new products; design, creation, or maintenance of computer programs; creation or maintenance of Internet sites; design, creation, or maintenance of software for information platforms on the Internet; maintenance of software for Internet access; design, creation, and maintenance of websites; design of operating system software; design, creation, or maintenance of operating software used for access to and use of cloud computing networks; providing information on the design and development of computer software, systems, and networks; design and development of computer hardware, software, and databases; remote monitoring of computer system operation; computer system design; advice on computer system design; computer system development; installation, maintenance, and correction of computer software; technical advice on the installation and maintenance of computer software; upgrading of computer software; computer network design; design and development of computer hardware and computer software; design of computer hardware, computer software, and computer peripherals; design of computer hardware and software; backup services for computer hard drive data; design and development of computer firmware; installation of computer programs; configuration of computer systems and networks; design of computer software for chip design; design and development of database management software; design and development of databases; design and development of computer software for data processing; contract design of computer software; upgrading of software for communication systems; maintenance of software for communication systems; development of software for communication systems; creation of control computer programs for electric modules for operation control and drive; design, creation, or maintenance of software for telecommunications; computer rental; providing computer programs; rental of web servers; providing application software online (SaaS); providing non-downloadable computer software online; hosting computer websites; rental of computer software; providing computer software platforms (PaaS); server hosting; rental of application software; testing or research on machines and apparatus; research on machines; testing and research on machines and apparatus; inspection and measurement of machines and apparatus; inspection and measurement of measuring machines and instruments; testing of the functions of machines and apparatus; introduction and explanation of the performance and operating methods of computers, automobiles, and other machines that require a high level of specialized knowledge, skill, or experience to operate correctly for their purposes; testing, inspection, or research of pharmaceuticals, cosmetics, or foodstuffs; research on architecture or urban planning; testing or research on the prevention of pollution; testing or research on electricity; testing or research on civil engineering; testing, inspection, or research on agriculture, livestock breeding, or fisheries; rental of measuring instruments; rental of physical and chemical machines and apparatus; monitoring of computer systems for detecting breakdowns; remote monitoring of computer systems for air conditioners via the Internet; remote monitoring of computer systems for water heaters via the Internet; providing non-downloadable computer software online for air conditioners; providing non-downloadable computer software online for water heaters; providing non-downloadable communication software online; design, creation, or maintenance of computer programs for data processing and communication systems; testing or research on waste treatment; scientific research in the field of environmental protection; testing and surveys relating to environmental protection; materials testing; hosting virtual spaces; hosting software platforms for collaborative work in virtual spaces; design and development of virtual reality software; providing computer programs for displaying heating and cooling apparatus in virtual spaces; providing computer programs for displaying hot-

water supply heaters in virtual spaces; providing computer programs for displaying air conditioners in virtual spaces; providing computer programs for displaying water heaters in virtual spaces
