

.ULTRAVIEW

A global namespace for verified and structured online presences

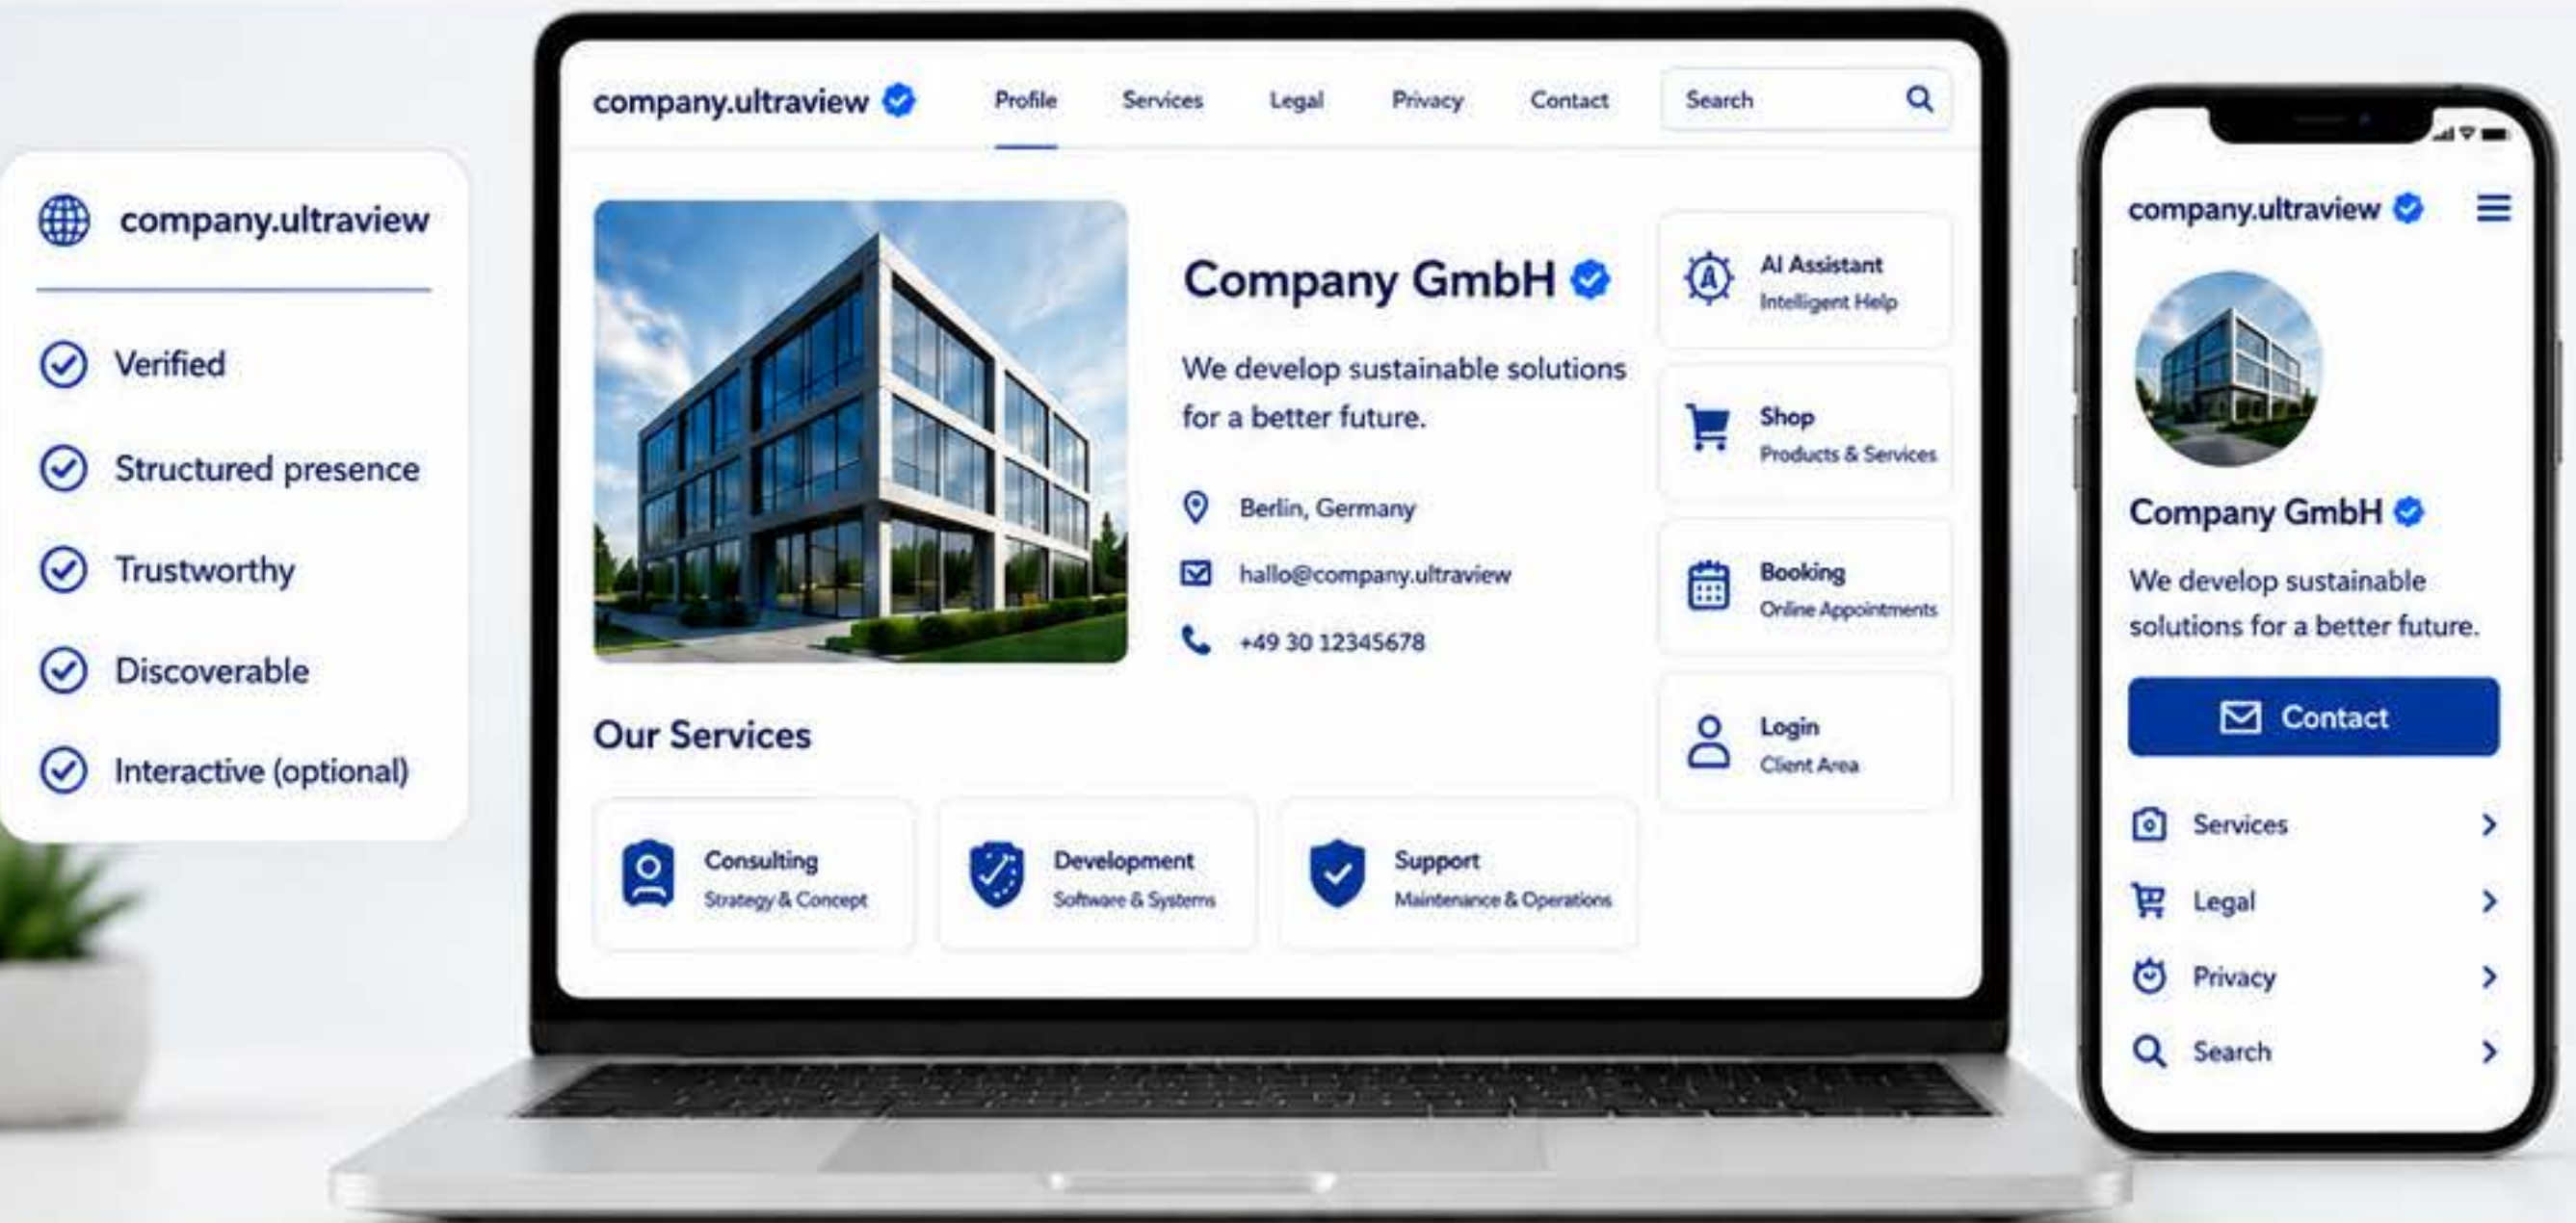

PRIMARY STRING

REPLACEMENT STRING: .UVW
= abbreviation of ULTRAVIEW

APPLICANT: ULTRAVIEW AG

1 MEANING

ULTRAVIEW combines “ultra,” meaning beyond or exceptional, with “view,” meaning a perspective or presentation. It denotes an advanced and distinctive digital view or presence for modern online identities and experiences.

2 MISSION

Enable clear and trustworthy attribution between registered names and public presences. Support structured, discoverable and machine-readable information. Keep the domain as the stable addressing and identification point.

3 POSITIONING

A structured namespace for verified digital presences, positioned between a conventional domain and the optional ULTRAVIEW platform. Open registrar distribution is combined with risk-based verification and a baseline for active public presences.

4 PRICING & REVENUE (MLS)

Standard avg. €12 | Sunrise avg. €150
EAP avg. €400 | Premium avg. €250

5 THREE-YEAR PLAN (MLS)

GA Standard: 21,000 | 35,000 | 42,000
GA Premium: 150 | 300 | 500
Launch Y1: 75 Sunrise + 25 EAP

6 OPERATIONS & .UVW

.UVW is the concise replacement identifier derived from ULTRAVIEW and uses the same registry, policy, pricing and platform-separation model.
Main RSP: it.com; Netnod DNS/DNSSEC; DENIC escrow; iQ Global DNS-abuse.

APPLICATION PROFILE

- Applicant and Registry Operator: ULTRAVIEW AG.
- Verification and the published baseline do not restrict technical registrability.
- Final policies and filing language remain subject to ICANN, legal, RSP and financial review.
