

Japanese Trademark Registration No. 4870824 — Register Extract and J-PlatPat Register Screen

This document is a single translation covering TWO source documents for one and the same registration, bound together in the order in which they appear in the Japanese original: first the trademark register extract (登録原簿), then the J-PlatPat Trademark Application / Registration Information screen. It covers registration No. 4870824 only and no other registration.

Part 1 — Trademark Register Extract (登録原簿)

TRADEMARK REGISTER EXTRACT

Trademark Registration No. 4870824

English translation of the attached Japanese original (mufg_D7-Trademark_Register-Extract-4870824_JP.pdf), a Trademark Register Extract (Toroku Genbo) issued by the Japan Patent Office and dated July 27, 2026. This is a REGISTER EXTRACT, not a Certificate of Trademark Registration: it is the running record of the registration and shows renewals, fee payments and every change of registered proprietor. Entries shown struck through and tagged [struck] are flanked by XX in the original, which is this register's convention for a superseded entry.

Filing date: November 19, 2004

Decision date: May 9, 2005

Standard characters

[The mark itself is NOT reproduced on this extract. The register declares the mark to be in standard characters and the adjacent field is blank — verified at 600 dpi. TRANSLATOR'S NOTE: the mark string must be taken from the Certificate of Trademark Registration or a JPO record, not from this document.]

Translator's note on this part

This J-PlatPat screen is submitted alongside the trademark register extract for the same registration. The register extract records the state of the register at the point it was issued; this screen evidences the facts that the extract does not show on its face — that the term of the registration was **renewed on 16 April 2025**, that the term now runs to **10 June 2035**, and that the status of the right is **in force**.

Dates recorded in the Japanese era calendar have been converted to the Western calendar, with the era retained in parentheses.

The phonetic references at field (561) are the Japan Patent Office's own katakana readings of the mark, recorded for search purposes; they are transliterated here and are not alternative forms of the mark itself.

The similar group codes (類似群コード) are administrative search codes assigned by the Japan Patent Office; they are reproduced as printed and are not translated.

The proprietor is recorded as 株式会社三菱UFJフィナンシャル・グループ, written with full-width Latin letters in the register. The company's own published English name, Mitsubishi UFJ Financial Group, Inc., is used above.

In the event of any discrepancy, the original Japanese screen prevails.
