Dear Sir/Madam,

Re: Statement of Support for the Cardano Foundation's Top-Level Domain Application for .ada

utxo AG (trading as "NMKR") is a leading multi-blockchain and AI infrastructure provider, primarily building on Cardano, that enables users to create and manage digital assets with their product NMKR, and use AI agents with their product Sokosumi (trading as "Masumi"). utxo AG has been an active member of the Cardano Community since 2022. With more than 35,000 unique users and more than \$59 million in revenue generated for projects, NMKR and Masumi build accessible tools that help creative and technical professionals to leverage the benefits of blockchain.

utxo AG submits this letter to indicate its support and endorsement to ICANN for the Cardano Foundation's top-level domain application for .ada, a project set out in the Cardano Foundation's Info Action which Cardano Community members across the globe voted on. This Info Action passed with overwhelming support, with 74.53% positive votes.

A number of positive votes on the Info Action contained the following endorsements or expressions of Cardano Community members:

- [AKYO](#): “本提案は、Cardanoブランドの保護とエコシステムの長期的発展に資するものであり、財団自身の資金で実施される点も評価します。公共財としての意義を持つ取り組みであると考え、賛成します。\\n\\n\\nI vote Yes on this proposal as it strengthens Cardano's digital presence and safeguards its brand. I appreciate that it will be executed using the Foundation's own resources and see this as a valuable initiative for the ecosystem's long-term development”
- [Yoroi Wallet](#): “Yoroi appreciates the Cardano Foundation's initiative in taking proactive steps to protect and strengthen Cardano's digital identity. This proposal represents a practical and forward-looking move that benefits the entire ecosystem.....Ecosystem Benefit: Cardano Foundation's decision to fund this initiative using its own resources demonstrates accountability and stewardship. This approach safeguards community resources while still delivering an ecosystem-wide benefit.”
- [Angel Castillo](#): “The acquisition of .ada and .cardano domains serves the best interests of the Cardano ecosystem and will be fully funded by the Cardano Foundation.”

utxo AG has reviewed the Cardano Foundation's plans for the top-level domain and we are excited for the opportunities this namespace will create for our global community. We believe that the Cardano Foundation is the entity which is best positioned to act as the registry operator for this

domain, and allowing another entity to control this domain would harm the interests of the Cardano Community.

utxo AG would therefore like to express its support for the Cardano Foundation's top-level domain application.
