Stake Subsidies

1,000,000,000 SUI tokens are locked as stake subsidies. These are distributed starting in epoch 2, with 1,000,000 SUI distributed in each of the initial 10 epochs. Subsequently, the subsidy amount will fall by 10% and remain constant for the next 10 epochs. This pattern will repeat itself until all subsidies are unlocked and distributed.

1,000,000,000 SUI tokens are locked as stake subsidies. These are distributed starting in epoch 2, with 1,000,000 SUI distributed in each of the initial 10 epochs. Subsequently, the subsidy amount will fall by 10% and remain constant for the next 10 epochs. This pattern will repeat itself until all subsidies are unlocked and distributed.

1,000,000,000 SUI tokens are locked as stake subsidies. These are distributed starting in epoch 20, with 1,111,111 SUI distributed in each of the initial 90 epochs. Subsequently, the subsidy amount will fall by 10% and remain constant for the next 90 epochs. This pattern will repeat itself until all subsidies are unlocked and distributed.

Release Cadence

Weekly release plus more frequent hot-fixes as necessary

Bi-Weekly updates (or weekly if new cherry picks were added since the last deployment)

Bi-Weekly updates (will be one revision behind Testnet since release candidate will go to Testnet first)

Data could be wiped as part of regularly scheduled software updates

Data wipes are not part of regular software updates. Until a regular schedule is established, data

Permanent and Durable
