### Self-Certification — Security Policy

ICANN New gTLD Program: 2026 Round — Applicant Self-Certification

This self-certification document is submitted by **Magyarországi Internet Szolgáltatók Tanácsa Tudományos Egyesület** (the “applying entity”) in connection with its application in ICANN’s New gTLD Program: 2026 Round for the .budapest top-level domain (AGB Question 220 / Q5.1-1).

The undersigned officer of the applying entity, duly authorized to act on its behalf, hereby declares and warrants the following:

**SC5.1-1.1** — The applying entity will appropriately protect confidentiality of data and prevent unauthorized access to data and services.

**SC5.1-1.2** — The applying entity will maintain a mature, appropriately funded and staffed security program, following a recognized, modern security framework based on risk management (such as the ISO27000 series, COBIT, HITRUST CSF, legally required security frameworks, or equivalent). The security program must be in place prior to delegation, and exist through at least the period of the registry agreement.

**SC5.1-1.3** — The applying entity is aware of and has designed its systems and business to comply with the relevant privacy and security regulations for all countries in which it operates.

The applying entity acknowledges that the foregoing representations and warranties are made for the purpose of, and may be relied upon by, ICANN in connection with the evaluation of the application.

Signed for and on behalf of the applying entity:

Signature: 

Name: Miszori Attila

Title: President (Elnök) — authorized officer / legal representative of the applying entity

Date: August 10, 2026

Place: Budapest, Hungary
